## Qualifications for Full Stack Developer

- Passionate and innovative programmer who possesses a strong fascination in the field of Computer Science with a desire to constantly develop new skills
- Illustrates the true meaning of teamwork; strong communication skills and a collaborative approach to problem-solving by working closely with engineers, and other stakeholders
- Highly self-motivated to work efficiently under little/no supervision

## Technical Skills

---

**Web development:** JS, HTML, CSS, Typescript, React, Redux, Bootstrap, Tailwind

**Languages:** Java, familiarity with C# and .Net

**Database and Cache:** MsSQL, PostgreSQL

**Software & Others:** GIT, Adobe Photoshop

## Professional Work Experience

---

**Software Engineer**, Medyae, Kadikoy, 08/2023 – 11/2023

→ Technologies: JS ( ReactJS, Bootstrap) .Net, Php, HTML, CSS. Others: Figma

I was primarily responsible for making revisions to the projects previously completed by the company. I reorganized all the mappings on Rams company's website, learning to manage and map SVG files. I also coded PSD files into HTML, CSS, and JavaScript. In our WordPress projects, I integrated PHP forms and similar elements into our WordPress site based on specific requests from clients.

## Internship Experience

---

**Freelancer developer**, Remote - Malta, Valletta 08/2022 – 12/2022

→ Technologies: JS, PHP, WordPress;

During my one-year stay in Malta, I used to visit businesses as a marketer, negotiate, and carry out their digital tasks. I opened and managed over 200 Google Business accounts, increased their customer base with accurate profiles, and occasionally managed their social media. I also created websites for some kebab restaurants.

**Software Internship**, Tierro Techo Trabajo, Agrigento, Italia, 11/2021 – 07/2022

→ Technologies: PHP, JS HTML, CSS, Bootstrap

I had a 7-month Erasmus internship abroad. During this internship, I worked on developments at <https://tttagrigento.it/>. I provided basic JavaScript training to incoming students at the institution. We created web designs using HTML, CSS, and JavaScript

**Software Internship**, Beto Software, Trabzon, 03/2019 – 06/2019

→ Technologies: JS (Jquery), HTML, CSS

The workplace where I started without knowing anything and learned the basics of software and stepped into this world. Skills I acquired Html, Css and First iOS computer experience

## Education

---

**Computer Programmer** 2019 – 2021 Avrasya University, Trabzon, TR

**Erasmus Internship** 2021 – 2021 Tierro Techo Trabajo, Agrigento, MT

**Ecole 42** 2023 - Current Remote, Istanbul, TR

## Certificate
